

QUIZ 10

COMP9021 PRINCIPLES OF PROGRAMMING

SPACES IN THE OUTPUT MATTER! They are made explicit in the pdf (but they are not part of the output itself...)

SAMPLE OUTPUTS

```
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 1
0
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 2
0
 1
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 3
0 2
 1
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 4
0 2
 1
   3
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 10
          1      4
          2      5          9
          3          8
          0          7
          6
$ python3 quiz_10.py
Enter two integers , with the second one between 0 and 10: 0 7
          1
          2          5
          0          4
          3
          6
```

```
$ python3 quiz_10.py
```

```
Enter two integers , with the second one between 0 and 10: 0 5
```

```
1
```

```
2
```

```
0 4
```

```
3
```

```
$ python3 quiz_10.py
```

```
Enter two integers , with the second one between 0 and 10: 20 10
```

```
6
```

```
7
```

```
3 8
```

```
0 4 9
```

```
1 5
```

```
2
```
